Sensor MXAZ

Diagnostic LED

ON	The sensor is running properly, there are no active errors
Blinking at high frequency (100 ms ON / 100 ms OFF)	Machine data parameters error
Blinking slowly (500 ms ON / 500 ms OFF)	Flash memory error
Blinking very slowly (1 s ON / 1 s OFF)	Error of the sensors while reading the magnetic tape
Single flash (200 ms ON / 1 s OFF)	The sensor is installed too far from the magnetic tape, the installation does not comply with the tolerance values between the sensor and the tape
Double flash (200 ms ON twice / 1 s OFF)	Several errors are active in the same time
